Helping you make the best use of health and social care services

Who we are

Healthwatch Greenwich is an independent consumer champion for health and social care services.

Healthwatch will give people a powerful voice in influencing the delivery and design of local services. Not just people who use them, but anyone who might need to in the future.

How we do it

- **Keep you informed** of important health and social care news
- Go out and **talk to local people** about their needs and experiences of services
- Ensure there are **different ways** in which you can tell us your views
- **Represent** your views on important decision making boards
- Work with **partners** to ensure services meet local needs
- **Tell you** how your comments have made a difference

What we do

- **Listen** to your views and experiences of local health and social care services
- Use those views to **write reports** on what services are doing well and those not doing well and make **recommendations** on how services can be improved
- **Make those views known** to the professionals who plan, commission, deliver and monitor services so that your voice is part of decision making
- **Visit** publicly funded health and social care services to talk to patients, service users, carers and staff
- Provide you with **information and signposting** about your choices and what to do when things go wrong.

How you can get involved

- Register free to become a **supporter** of Healthwatch Greenwich and receive regular ebulletins, event invitations and updates on our work
- **Share** with us your experiences of local health and social care services
- **Volunteer** in Healthwatch activities
